

### **Changes for DDBSP 2013 HotFix1**

*Release Date: July 3, 2013*

#### **DDBSP**

- Fixed: On some systems the connection to several COM server fails. The COM servers fail with an abnormal program termination. As several essential COM servers are affected the major applications will fail to work.

#### **Process Synthesis**

- Fixed [Residual Curves]: (regr. v2013) The heterogeneous ternary azeotrope is no longer detected.
